PROFILE

I'm a mobile app developer with a passion for crafting apps that knock people's socks off!

Armed with a degree in Computer Software Engineering and Google's official Android development training, I've sharpened my skills into those of a certified code ninja! I've also launched a few open-source projects that have been downloaded by thousands, showcasing my ability to turn ideas into digital reality. When not busy squashing bugs, you'll find me exploring the depths of the internet, staying ahead of the latest trends, and fueling my curiosity for all things tech.

EXPERIENCE

Mobile App Developer at Noviner

Apr 2024 – Dec 2024

Developed and maintained a diverse range of hybrid and native mobile applications as a contractor, utilizing Flutter for cross-platform solutions and Kotlin for Android-specific projects.

Android Developer on Upwork

Dec 2023 – Apr 2024

Collaborated with clients across the world to bring their app concepts to life, one pixel at a time.

Android Developer at Borhan Mobin

Jul 2022 – Oct 2023

As the sole mobile developer at this company, I was responsible for creating an Android app that enabled online purchase of soccer tickets. The app was a smash hit, reaching more than 20,000 monthly active users in just a few months!
